

## About Us:-

### Learning Tracker

Learning tracker is an online learning & publishing system that lets you keep track of information you've learned about particular topic. This web app is useful to all students, teacher, researcher, online publisher, pdf file keepers, in fact any one for general use.

This web app called Learning tracker which allows users to log the topics they're interested in and to make journal entries as they learn about each topic. The Learning tracker home page will describe the site and invite users to either register or log in. Once logged in, a user can create new topics, add new entries, edit existing entries, upload pdf file associated with that entry, read & download pdf files and All entries & files are kept at one place datewise which helps you to keep track of learning. Note that entries are visible to all users so author must select title of topic carefully & information associated with it. Admin reserve all rights to delete particular topic & all data associated with that topic if found illegal or of not appropriate standard. When you learn about a new topic, keeping a journal of what you've learned can be helpful in tracking and revisiting information.

This web app is developed by skilled professional in Nagpur Maharashtra, India is Professor, trainer of wide areas in electronic/electrical engg. subjects such as Electronic Devices & Circuits, EMF, ADSD(VHDL), CMOS VLSI, particularly interested in Python, Django web development / programming & latest skill in Object Oriented Programming(C/C++), Python, Machine learning, AI, Oracle RDBMS etc. Any suggestions for further improvement are most welcomed & mail me on [pradeepbarde@yahoo.com](mailto:pradeepbarde@yahoo.com).
